

LETTERS IN TO THE EDITOR:

Leaving the EU was the choice of the majority. Contrary to what the 'fake news' in the media would have you believe, those who voted to Leave knew exactly what they were voting for; –

**Sovereignty:** taking back our Laws from EU Commission and the ECJ , , our fish from our Seas, our Borders, our freedom to sign Trade Agreements without the EU, our monies and recover Democracy!

WHERE IS ANY OF IT YET TO BE SEEN? It's time Britain's 'Remainer' politicians respected patriotism, acknowledged the truth that **Sovereignty** was the central issue in our Referendum.

Britain has a proud history of giving independence to other countries and winning two world wars to maintain UK Democracy, Freedom and Independence.

**Prior to World War 2** there were many politicians who realised that independence was the way forward for the members of the British Empire. There are still many of us who were fortunate enough to have been on location and experience the effects of independence. In countries like India, Malaya, Singapore, and Ceylon, we realised how the values of democratic self-determination empower a population, and generates aspirations for trade outside of their borders.

**Our Government must, if it is to survive, recognise and act on the will of the people to independent again.**

**This Government must begin the urgent preparations NOW. Please see the BREXIT EXIT FACTS.**

The UK must leave the European Union in March 2019 in accordance with the terms of Article 50; 1] no 'divorce' payment, 2] no transition period, 3] no Deal, unless the EU chooses Free Trade without the political conditions dictated by the single market and Customs Union.

There is no 'cliff edge', Britain can and will survive and prosper. The UK sells only 8% of UK GDP into the EU. The EU sells more into Britain.

LET'S GET OUT NOW.

[Brexitteer of Dorset.]
