

INTRODUCTION OF CONCORDANCEOUT.EU FOR THE CIB RALLY. 14/4/2018 vf

Lord Halifax in the film "OUR DARKEST HOUR" seems to have preferred swastikas flying over Buckingham Palace rather than encourage the whole nation under Churchill to pull together.

It is this **togetherness** that concordance seeks amiably technically and knowledgeably , also sometimes with approved plagiarism from others who know more, to inform and encourage in a non-political way all those who wish success for the UK in Brexit.

BREXIT will happen despite the Wednesday meetings of Chuka Umunna, the monies of George Soros and the unpatriotic antics of Tony Blair and his fellow Remainers.

concordanceout.eu

It is a BREXIT umbrella of Brexit information web sites.,

Ait is one Stop Shop Knowledgeable, instructive, technical and transparent: Transparency with honesty and that is what the men and women seek today who ride on the CLAPHAM Omnibus.

It has a growing number of links to all Brexit web sites. Please feel free to assist us all by sending to us any and all missing ones. We welcome comments , amendments and improvements.

We see that a unity of Brexiteers is essential. A unity: -

To collaborate is urgent.

To unite as we honour the Referendum.

To work on solutions [and not rely as does Mr Redwood that it will not be automatically "all right on the night"].

To teach all the facts from Brexit web sites.

THEREBY:- The Brexiteers will not work for BREXIT in isolation but resemble another umbrella organisation from the Darkest Hour, OPERATION DYNAMO, where the power of 900 small units saved 300,000 service men from the clutches of the Nazis.

BETTER TOGETHER is the way to succeed.
