

What is Appeaser Theresa May not telling us?

Any person with real experience of negotiations knows a satisfactory agreement only comes when both sides have given up something of value to the opposing side.

The Brexit position today at the end of March 2018 looks very much like an agreement veering at a very high speed high speed in the clear direction of an 'Associate Membership' Status of the European Union [ASEU]. Indeed it is a negative BREXIT so far until December 2020.

I know, there's no such thing as ASEU. But there will be. Our Remainer Prime Minister in full co-operation with Mr Davis is showing great reluctance to LEAVE THE EUROPEAN UNION as directed by the majority vote Referendum result.

The Referendum Pro EU inaccurate Document sent at huge cost , circa £8 Million, by Mr Cameron to every household clearly stated that the result would be honoured by Parliament.

If the 'RED LINES' are not to be the biggest lie since Ted Heath's infamous comments about the EU*, Mrs May needs clarify her preferred destination outcome of these negotiations.

What were the present promises of this Government?

We LEAVE the EU at the end of the two years from filing notice under Article 50, but now we do not until after December 2020 in real time. Before then we recover nothing except it seems so far an opportunity to negotiate trade deal with the non EU world.

What are the current UK prospects from March 2018?

Two more years of EU Controls

Two more years of new EU Regulations

Two more years of paying over £14 Billion* p.a. of money to prop up the EU's budget proposals

Two more years of unlimited migration of other EU member states peoples into the UK

Two more years of benefits, health care costs, and all other UK local, regional and national Government services to cover people who will have the 'right' to become permanent residents of *our* Country.

Two more years of the EU ignoring what Britain seeks and voted for

Two more years of loss of UK Sovereignty
Two more years of loss of UK democracy
Two more years of betraying UK fishermen
Two more years of the European legal system applied by the ECJ

Add to that list.....

Two more years of excessive payments*by a vassal UK region but not a State to the Lords and Masters in Brussels

This following list reads like the Remoaners wildest dreams come true:

Two more years to wear down the majority who want out
Two more years of the EU Gravy Train
Two more years of uncertainty for voters, business, and international freedom to trade
Two more years of Members of our Parliament failing to heed the instructions of those who elect them.
Two more years of 'Common Purpose' Civil Servants failing to be civil or acting as the servants of the majority of the sovereign UK electorate. It is the electorate who are sovereign over the UK Parliament , subject to the EU Masters until Brexit is done.

No wonder Mrs May's Governance is seeking to restrict free speech in this country. We know that EU 'employees' are contracted not to speak ill of their political masters and its governance.

.....BEWARE free speech is under heavy threat and being attacked by the UK police as we speak.

A 'Vassal State' is too generous a title for the UK; we are fast becoming a subservient island of prisoners, convicted of wanting to leave a Club for the vested interests of the few seeking a One United all powerful European Federal Government.

There are two sets of 'FOUR FREEDOMS'

Those invented by the European Union to produce a homogenous people of no fixed address and no clear identity who belong in EREWHON:

- 1. The free movement of goods**
- 2. The free movement of capital**
- 3. The free movement of services**
- 4. The free movement of labour**

And those first presented in 1941 during the DARKEST HOUR which became the clarion call of all peoples wanting democracy and sovereignty

- 1. Freedom of speech**

2. Freedom of worship
3. Freedom from want
4. Freedom from fear

Mrs May's achievements in negotiation to date can only assure those Remoaners who wish to remain in the EU that their Four EU Freedoms are paramount, and that the Four Freedoms of the DARKEST HOUR matter less.

Can there be any doubt about the preferred Four Freedoms of those who voted to leave the European Union?

What must now be done to respect the referendum result is for a clear and unambiguous statement to be heard from all those who voted for and those that now also believe that Democracy and Freedom must triumph over the One Europe non nation state bureaucratic federal non democratic EU government planned for us here in the UK by the unelected Commissioners in Brussels.

- Please see Lord Kilmuir quotation from his long advice** to Mr Heath in December 1960, when Prime Minister:-
- *“I have no doubt that if we do sign the Treaty, we shall suffer some loss of sovereignty,” “This is a surrender of our Sovereignty a clear Act of Treason under the 1351 Treason Act and a Praemunire, under the 1392 Act of Praemunire; it is Treason under the 1559 Act of Supremacy and the 1688/9 Declaration and Bill of Rights.”*
