

House of Lords v2 3 5 2018

We urge the people, the true supporters of Democracy and all Brexiteers to act in-togetherness as a Team in the face of Parliamentary deceit and betrayal.

Parliament is now attempting to destroy Democracy and create a growing and dangerous constitutional crisis in the UK. Please read the piece from R Tice in the Daily Telegraph herein.

There will be irresistible forces without doubt that will see this Parliament fail sooner rather than later. The people's Will MUST BE HONOURED in spirit and in deed. All Brexiteers and Democrats must be ready to continue the fight to recover our UK Democracy and total Sovereignty.

Failing an early General Election and no proper BREXIT there will be civil resistance in many forms. Brexiteers will be joined with true Democrats. The country is in peril from dangerous forces that lurk in the monied pits of London and Abroad.

We all see the forked tongues of the House of Lords and of the Commons who have doggedly pushed an agenda to destroy the Will of the People and to prevent this Government of making a good fist of the Brexit negotiations possible. These unelected Peers and non-democratic MP's seek not Brexit but a European Federation within the EU.

A minority UK Government gives these Remainers greater control over the Executive and so over the Brexit electorate as they seek perversely to give all Sovereignty to the EU and make their very own Parliament once more redundant!

This agenda is being pursued through their unelected plutocracy, the monies of many undemocratic federalists, including Blair and Soros, and by these servants of tyrannous obfuscation they talk with forked tongues about Democracy when they seek to conjoin once more with the EU and destroy all UK Sovereignty and its very Nationhood."

Ukip too must arise from its slumbers and ride with the People to see the Will for a true Brexit achieved.

There shall be no more VASSAL STATE for the UK.

The UK shall be FREE.
