

## Rolls Royce and Standards and essential CERTIFICATION v1 25 5 2018

Rolls Royce relocates to the EU due to Mrs May's ignorance of how the EU works, its rules, CONFORMITY issues, and her failures in understanding the system of certification and NOBOs [NOTIFIABLE BODIES]

Please see Edward Spalton's article on this vial subject.

This has occurred because the informed sources that clearly spell out this information in detail and in regular large doses are entirely ignored by the ignorantii in politics generally and in this Government in particular.

Why? - Simply because these are the wrong sources. These Westminster types only regurgitate their own acceptable source material wholly wrong and error prone though it be.

They should read this web site at **concordanceout.eu**. Better still they should read EUReferendum.com and the CIB web site *campaignforanindependentbritain.org.uk*
