

TYRANNY AND FREESPEECH V2 27 5 2018

This is the end of the beginning!

Free speech is ended now we, once free, must beware the quiet offended onlooker and the thought police. We must beware the Elite, Police, Judiciary and the Government seeking to suppress all that is good but they think otherwise.

Tyranny has taken a tighter grip
We are not supporting extremists
We are supporting the right to free speech and the liberty of the subject.

“Grooming Accused” are not the issue either. They get a fair trial. These may well have not done:-

Alison Chabloz
Jayda Franzen
Paul Golding
Jez Bedford-Turner
And now
Tommy Robinson

Are.....All of You next? What on Earth is going on here?

It is the loss of free speech and free thought that is a disaster to democracy; PC is now a cancer in our democracy regardless of toleration and respectfulness.

Does the PC speak now safeguard the intolerant and the Disrespectful to established UK Christian and Democratic values?

THE PRICE OF FREEDOM IS ETERNAL VIGILANCE
