

A quick read summary.

The Referendum was about UK Sovereignty and Freedom.

1 The EU has no political or economic WILL to negotiate a lasting and effective UK-EU agreement.

2 The EU seeks only to retain intact its Four Freedoms.

3 The EU seeks to further its Federalist ambitions; Ever closer union still means ultimately:- One Parliament, One Currency, One Government, One European Nation divided into regions, One ECJ, One Anthem and One Flag.

4 There cannot be a "deep and special" relationship with the EU when we leave – not, at least, on the lines Mrs May is suggesting.

5 The PM of the UK must honour her words:- "BREXIT MEANS BREXIT" " NO DEAL IS BETTER THAN A BAD DEAL".

6 Today there are no deals to pursue except one.....the only escape route from the EU is the Market Solution via EFTA as a stepping stone to FREEDOM and SOVEREIGNTY.
