

Dear Mr. Javid,

WHAT ARE YOU GOING TO DO ABOUT IT? I would like to know.

As you know, last night there was a shameful incident in Lewisham bi-election where extreme left, fascist thugs successfully closed down the hustings, stopped one legitimate candidate from entering the Salvation Hall and abused candidates and public going in. The police, for whom YOU are responsible were there in numbers but seemingly did nothing to stop this outrage against our pretend democracy. If I have not got the facts correct, it is because there has not been the slightest news coverage. This closing down of free comment and free speech is another scandalous breakdown of a free society.

At the same time, one man reporting legitimately on a trial of rape and grooming charges is whisked off the street, sentenced without proper representation, either the police or court judiciary having lied to his lawyer by all accounts, and imprisoned in five, yes five hours.

Last night there was a clear breach of the peace in Catford, but no arrests and no protection of one bona fide candidate in particular. It is shameful. **WHAT ARE YOU GOING TO DO ABOUT IT?** How can our 1000-year liberties survive?

I am not any longer a member of any party but was a Conservative activist for forty years and a councillor for 15 years.

Regards,

Tony Woodcock
