

The UK is now like Germany 1932-33.

There : -

- 1 is anti white Christian and European Culture hatred amongst many ethnic minority immigrants,
- 2 is anti-Semitism in Labour,
- 3 are anti "white Christian Democrats" who are now seen as easily arrestable by the biased police forces who protect more ethnic wrong doers. eg Kent and London police
- 4 are the adverse forces of the UK judges with their own imposed "hate law" and other legal concepts that see the imprisonment of Tommy Robinson, Jez Bedford-Turner, Jayda Franzen, Paul Golding and no doubt many others not to mention the arrest of Paul Weston
- 5 and the destruction of Truth, especially in schools and in the MSM leading to a continuing decline in real Democracy and the destruction of Free Speech by PC and Hate Crime..

These are increasingly dangerous trends in times of non democratic Government. Thank you concordanceOUT.eu
